

Sample Site Plan for Stormwater Erosion & Sediment Control

- X-X-X-X

Sediment Control
(Silt Fence, Wattles, Rolled Erosion Control Product, Grass Buffer, etc.)
- Lot Access
- Direction of Surface Water Runoff
- Area Inlet with Stabilized Buffer
(Grass, sod, RECP, etc.)
- Curb Inlet with Filter Protection
- Distance from property line to structure
- North arrow
- Property line

In the absence of a 10' grassy buffer an erosion control device must be installed and maintained

**** Show all proposed erosion and sediment protection measure (**BMPs**) ****

(Silt fencing/hay bales for protecting drainage and/or neighboring properties, large rock/gravel to minimize tracking of sediments, dust, and debris onto roadway)
